NNSA M&O OFF-SITE EXTENDED DUTY ASSIGNMENTS

1. **PURPOSE.** To establish National Nuclear Security Administration (NNSA) policies and procedures for the administration of Management and Operating (M&O) contractor employees temporarily working on extended duty assignments. This policy document identifies requirements regarding overall management and administration of all M&O contractor employee extended assignments, including assignments to NNSA, Contractor Domestic Extended Personnel Assignments (CDEPA), and M&O Intergovernmental Personnel Act (IPA) Assignments to agencies other than DOE/NNSA.

The intent of this policy is to standardize monetary, moving, travel, and other allowances provided to M&O contractor employees on extended temporary duty assignments; set forth requirements where none previously existed (IPA assignments) to promote full transparency with respect to these taxpayer-funded assignments; and streamline assignment approval processes.

2. **CANCELLATION.** NNSA Supplemental Directive (SD) 350.2 Rev 1, *Use of Management and Operating Contractor Employees for Services to the National Nuclear Security Administration in the Washington, DC, Area* dated 10-18-12.

Cancellation of a directive does not, by itself, modify or otherwise affect any contractual or regulatory obligation to comply with the directive. Contractor Requirements Documents that have been incorporated into a contract remain in effect throughout the term of the contract unless and until the contract or regulatory commitment is modified to either eliminate requirements that are no longer applicable or substitute a new set of requirements.

3. **APPLICABILITY.**

- a. **Federal.** With the exception of the equivalency in paragraph 3c, this NNSA Policy (NAP) applies to all NNSA elements. NNSA Elements consists of Headquarters' Program Offices (POs) and Field Offices that report directly to the Office of the Administrator.
- b. **Contractors.** This applies to all NNSA M&O Contractors. The Contractor Requirements Document (CRD), Attachment 1, sets forth the requirements of this policy that apply to M&O contracts. The CRD must be included in all NNSA M&O contracts. M&O contractors are responsible for flowing down the requirements of this NAP to subcontracts at any tier to the extent necessary to ensure compliance with the requirements. M&O contractors must ensure that they and their subcontractors comply with the requirements of this NAP.
- c. **Equivalencies/Exemptions.**
 - (1) **Equivalency.** Intergovernmental Personnel Act Assignments of M&O contractor employees to NNSA/DOE will be required to follow the

procedures and provisions contained within DOE M 321.1-1, including any subsequent revisions.

- (2) Exemption. In accordance with the responsibilities and authorities assigned by Executive Order 12344, codified at 50 United States Code sections 2406 and 2511, and to ensure consistency through the joint Navy/DOE Naval Nuclear Propulsion Program, the Deputy Administrator for Naval Reactors (Director) will implement and oversee requirements and practices pertaining to this Directive for activities under the Director's cognizance, as deemed appropriate.
4. SUMMARY OF CHANGES. This policy replaces NNSA Supplemental Directive 350.2 Revision 1, *Use of Management and Operating Contractor Employees for Services to the National Nuclear Security Administration in the Washington, D.C. Area*, dated 10-18-12, and incorporates requirements from DOE Acquisition Letter 2013-01, *Contractor Domestic Extended Personnel Assignments*, dated 10-18-12. It also closes a policy gap regarding M&O employees on IPA assignments with agencies other than DOE/NNSA and provides a single, consistent source of information on process and allowable cost under the M&O contracts regarding for all types of M&O employee temporary extended duty assignments.
5. BACKGROUND. This NAP addresses various extended duty temporary assignments for NNSA M&O contractor employees, including M&O contractor IPA assignments to locations other than DOE/NNSA. The NAP standardizes existing processes and policies on travel allowances for Off-Site Extended Travel Duty Assignments where possible, manages costs, and provides the M&O contractor with a method to implement Off-Site Extended Travel Duty Assignments within policy requirements without transactional approvals by NNSA. The allowances in this policy are generally consistent with the Federal Travel Regulations. This NAP provides the M&O contractors with a risk-based approach to implement Off-Site Extended Travel Duty Assignments upon enacting the internal controls described below and approved by NNSA.

This policy describes requirements set forth by NNSA for the Use of Management and Operating Contractor Employees for Services to the NNSA, Contractor Domestic Extended Personnel Assignments, and M&O contractor IPA assignments to non-DOE/NNSA entities. This policy provides guidance to NNSA Programs and M&O contractors regarding the routing and approval process.
6. REQUIREMENTS.
 - a. NNSA, through the cognizant contracting officer (CO), must inform each M&O contractor no later than September 1 each year, regarding the maximum number of Off-Site Extended Travel Duty Assignments that may be utilized by the M&O contractor during the following calendar year. This figure will include all Off-Site Extended Travel Duty Assignments, including M&O contractor employee assignments to the NNSA, CDEPAs, and M&O IPA assignments to DOE/NNSA or agencies other than DOE/NNSA.

- b. The M&O contractor must follow the Contractor Requirements Document (CRD) attached to this policy. The CRD sets forth requirements for the M&O contractor regarding supporting documentation necessary for each Off-Site Extended Travel Duty Assignment, reimbursable expense limitations for M&O contractor employees on Off-Site Extended Travel Duty Assignments and other limitations such as assignment time limits and requirements that the employees sign nondisclosure/conflict of interest agreements. Adherence to the reporting requirements and travel cost limitations set forth in the CRD is a prerequisite to cost allow-ability for any costs associated with Off-Site Extended Travel Duty Assignments.
- c. Requests for exceptions to Off-Site Extended Travel Duty Assignment policies, such as additional travel allowances, or exceeding assignment term limits, must be submitted to the NNSA Head of Contracting Activity (HCA) for review and approval prior to the beginning of the assignment. The procedure for obtaining exceptions to the requirements set forth in the CRD of this NAP, must be followed (see Attachment 14 for information regarding the procedure for obtaining an exception).
- d. M&O contractors must reimburse assignees for either Temporary Change of Station (TCS) or Extended Travel Duty (ETD) allowances as described in Attachment 2. M&O contractors shall not reimburse assignees for both TCS and ETD allowances.
- e. Each assignment agreement requires the approval of the M&O contractor representative and NNSA PO/IPA sponsoring organization/Contractor Domestic Extended Personnel Assignment Entity, as applicable. The M&O contractor representative must certify the assignment agreement complies with requirements set forth in the CRD to this NAP, upon incorporating the CRD into the contract. Documents substantiating the agreement must be available to NNSA in the NNSA SharePoint database as required in Attachment 1, CRD, A4.
- f. Special Issues with M&O Assignments: Use of M&O Contractor Employees for Services to DOE/NNSA.
 - (1) NNSA elements and M&O contractors must follow the procedure for approving new M&O assignments to NNSA illustrated in Attachment 8.
 - (2) NNSA elements and M&O contractors must follow the procedure for approving extensions of M&O assignments to NNSA illustrated in Attachment 9.
 - (3) Per the *NNSA Act*, (50 USC § 2410(b)), if an NNSA M&O contractor employee is detailed to a non-NNSA PO within DOE, (e.g., Science, Environment Management, Fossil Energy), the employee must not be subject to the authority, direction, or control of any non-NNSA employee, except for the Secretary of Energy consistent with section 202(c)(3) of the

Department of Energy Organization Act (42 USC 7132(c)(3)). Three options are available to the non-NNSA Program Office:

- (a) Conduct the assignment as an IPA, so the individual would have most of the same authorities as a Federal employee.
- (b) Have the detail assignment conducted through an NNSA Program Office that has a similar scope of work as the DOE element to which the M&O contractor employee would be detailed. In this situation, all work performed by the assignee is coordinated through the NNSA PO.
- (c) The non-NNSA PO enters into a Memorandum of Understanding (MOU) with the cognizant CO. The MOU must describe the proposed duties and tasks in sufficient detail to ensure all authorization and control is exercised via that MOU such that there is no NNSA Act violation.

(4) M&O contractor Administrative Staff Offices:

The M&O contractor must request approval to establish an Administrative Staff Office in the Washington, DC, area. This office must provide administrative support functions required for M&O contractor employees while on an Off-Site Extended Travel Duty Assignment. M&O contractor employees in this office typically help employees on assignment and travel to the Washington, DC, area with administrative issues such as payroll, travel, loaner equipment and other administrative functions as determined by the M&O contractor to support contract objectives. Employees working in the M&O contractor Administrative Staff Office are not eligible for extended travel duty or temporary change of station allowances since their permanent duty station is in Washington DC. M&O contractor Administrative Staff Office employees are only eligible to receive salary, benefits, and a transit subsidy.

g. Special Issues Associated with Contractor Domestic Extended Personnel Assignments (CDEPAs):

- (1) CDEPAs include but are not limited to the following types of assignment categories: Change of Station, Strategic Partnership Projects (SPP), loaned personnel, assignments to other DOE/NNSA M&O contractors, and any other type of temporary assignment. Any assignment of an employee away from his/her permanent duty station for more than 30 consecutive calendar days, except for M&O contractor assignments to DOE/NNSA and Intergovernmental Personnel Act (IPA) assignments, are covered in this category. See the *CDEPA* definition in Section 8 of this NAP.
 - (2) Subcontractors to M&O contractors may send employees on CDEPAs. In the event an M&O contractor approves this arrangement for its subcontractor, the M&O contractor must ensure the appropriate CRD clauses are flowed down into its subcontract.
 - (3) All CDEPA assignments must contain an assignment agreement or similar documentation, identifying the nature of the work to be performed; conflict of interest mitigation strategies as appropriate; how the assignment furthers goals and objectives of both participating organizations; anticipated assignment duration; and an evaluation of assignment allowances (ETD and TCS) reflecting projected cost associated with assignment, and any cost reimbursements, if applicable. Assignments must not be initiated to meet personal interest of employees, or to circumvent personnel ceilings or contractor support limitations.
- h. Special Issues Associated with M&O Intergovernmental Personnel Act (IPA) Assignments to non-DOE/NNSA Entities:
- (1) Intergovernmental Personnel Act Assignments of M&O contractor employees to DOE/NNSA must follow the procedures and provisions contained in DOE M 321.1-1, including any subsequent revisions.
 - (2) IPA assignments are a temporary transfer of skilled personnel between the Federal Government, and State or local governments, Native American tribal governments; institutions of higher education; or other eligible organizations (including Federally Funded Research and Development Centers).
 - (3) IPA assignments must be established for purposes of mutual interest to the Department, the M&O contractor, and the participating entity.
 - (4) IPA assignments can be used to achieve objectives, such as:
 - (a) Strengthening the management capabilities of Federal agencies and State, local, and Native American tribal governments.
 - (b) Assisting in the transfer and use of new technologies and approaches to solving governmental problems.

- (5) IPA assignments are of mutual benefit to the participating organizations, therefore both organizations (M&O contractor and IPA receiving entity other than NNSA) shall share in the assignment costs unless an exception has been approved.
- (6) Assignments are voluntary and must be agreed to by M&O contractor employees.
- (7) Status of M&O contractor employee while on IPA assignment (to DOE/NNSA or to other entities):
 - (a) M&O contractor employees may serve on an IPA assignment if their employer is a Federally Funded Research and Development Center or DOE/NNSA has certified the entity as an eligible other organization as described in § 5 CFR 334.103.
 - (b) M&O contractor employees on IPA assignments are considered to be on detail from their permanent employer (M&O contractor) and the following applies:
 - 1 M&O contractor employees may supervise Federal employees and make decisions on behalf of the government for which they are assigned.
 - 2 There is no entitlement to pay from the Federal organization.
 - 3 Assignee is not eligible for federal/state retirement, health benefits, and life insurance benefits. During the IPA assignment, benefits coverage is continued by the M&O contractor.
- (8) Length of Assignments (to DOE/NNSA or other entities):
 - (a) IPA assignments may be intermittent, part-time, or full-time. A single IPA assignment can initially be made for any period up to two years, but the single assignment may not exceed a period of four years. However, NNSA reimbursed ETD assignment allowances will only be provided for a total of three years.
 - (b) IPA assignments should be kept to the minimum time necessary to complete the assigned tasks.
 - (c) Assignments automatically end on the date indicated in the IPA Assignment Agreement. If an assignment ends earlier than the approved end date, the sponsoring entity should notify the M&O contractor at least 30 days prior to the revised end date.

ATTACHMENT 1: CONTRACTOR REQUIREMENTS DOCUMENT

NAP-31, NNSA M&O OFF-SITE EXTENDED DUTY ASSIGNMENTS

The M&O contractor is responsible for complying with the requirements of this CRD. The M&O contractor is also responsible for flowing down the requirements in this CRD to subcontractors at the tier necessary to ensure compliance with the requirements set forth in the CRD. Adherence to the travel cost limitations set forth herein are a prerequisite to cost allowability for any costs associated with Off-Site Extended Duty Assignments.

A. Applicable to all M&O Off-Site Extended Duty Assignments.

The M&O contractor must:

1. Develop internal policies consistent with this NAP and submit for CO approval prior to implementing a risk-based approach for Off-Site Extended Duty assignments.
2. Operate within its ceiling of Off-Site Extended Duty assignments provided by the cognizant NNSA CO on or about October 1 of each year.
3. Submit any exception requests, related to 1) travel allowances that differ from the permitted list in Attachment 2; 2) assignment terms in excess of the maximum permitted duration or; 3) any other deviation from the requirements set forth in this CRD, to the NNSA cognizant CO at least 60 days prior to the start of the assignment.
4. Ensure all new M&O Off-Site Extended Duty Assignments are entered in the NNSA SharePoint database within 30 days of the assignment becoming effective. Failure to include an Off-Site Extended Duty Assignment in the system may render any costs associated with that assignment to be unallowable under the terms and conditions of the contract.
5. Ensure the NNSA SharePoint site includes the following elements for all Off-Site Extended Travel Duty assignments:
 - a. M&O Assignments to NNSA:**
 - (1) M&O Assignments to NNSA Task Assignment Statement Agreement (Attachment 4);
 - (2) M&O Assignments to NNSA Assignment Extension Request, if applicable (Attachment 5);
 - (3) Non-Disclosure and Conflict of Interest Agreement for M&O Assignments to NNSA (Attachment 6);

- (4) Cost Estimate Worksheet for M&O Assignments to NNSA (Attachment 7);
- (5) Actual costs at the end of the assignment;
- (6) NNSA Exception Request Form, if applicable (Attachment 15); and
- (7) Additional support/justification for any particular assignment, if appropriate.

b. IPA Assignments:

- (1) OPM Optional Form (OF) 69 (Attachment 12);
- (2) M&O IPA Assignment Agreement for Non-DOE/NNSA IPA's (Attachment 11) or similar form already used by M&O contractor if that form includes the same information requested in Attachment 11;
- (3) M&O IPA Cost Estimates (Attachment 13);
- (4) Actual costs at end of the assignment;
- (5) Extension Requests, if applicable;
- (6) NNSA Exception Request Form, if applicable (Attachment 15); and
- (7) Additional support/justification that supports any particular assignment, if appropriate.

c. Contractor Domestic Extended Personnel Assignments:

- (1) Assignment Agreement between the M&O contractor and the receiving entity, see D(1) of this CRD regarding the required contents of the agreement;
 - (2) Cost Estimate estimates for both ETD and TCS options;
 - (3) Actual costs at end of the assignment;
 - (4) Extension Requests (if applicable);
 - (5) NNSA Exception Request Form (if applicable) (Attachment 15); and
 - (6) Additional support/justification that supports any particular assignment (if appropriate).
6. Update the NNSA SharePoint site described in A.4 of the CRD with any changes to Off-Site Extended Travel Assignments within 30 days of any new assignment, changes to current assignments, or termination of assignments.

7. Ensure any employees on assignment returns to his/her permanent duty station for at least 60 days prior to beginning a new assignment.
8. Ensure the absence of employees due to detail assignment will not impede the M&O contractor's ability to complete work under the contract (written support for that assertion is required in the assignment agreement, see Attachment 4, 3(d)).
9. Ensure a conflict mitigation strategy is reviewed and approved as appropriate.
10. Ensure each assignment is approved by the appropriate M&O contractor representative.
11. Ensure all applicable overhead burdens for the assignment are included in the cost estimate.
12. Disclose total costs of the assignment and information about what percentage, if any, is funded by non-NNSA sources.
13. Ensure Extended Travel Duty Allowances (ETD) are limited to three years for any Off-Site Extended Travel Duty Assignment.
14. Adhere to all allowances for Off-Site Extended Travel Duty Assignments including limits set on salary adjustments, per diem allowances, travel allowances, and relocation allowances as described in Attachment 2. Allowances in excess of the limitations set forth in this policy without an approved exception are unallowable (see Attachment 15).
15. Consider for each assignment the length of the proposed assignment and cost difference between TCS and ETD allowances. The M&O contractor should consider the impact to assignee and which travel option may be in the best interest of NNSA when determining selection of allowances. If the higher cost option is proposed, the M&O contractor shall document justification for the selection of the higher proposed allowances in addition to other relevant facts and circumstances in the assignment package.

B. Requirements specific to the Use of M&O Contractor Employees for Services to DOE/NNSA.

PO-	Program Office
TAS-	Task Assignment Statement

Process for *New M&O Assignments to NNSA*

The process is as follows:

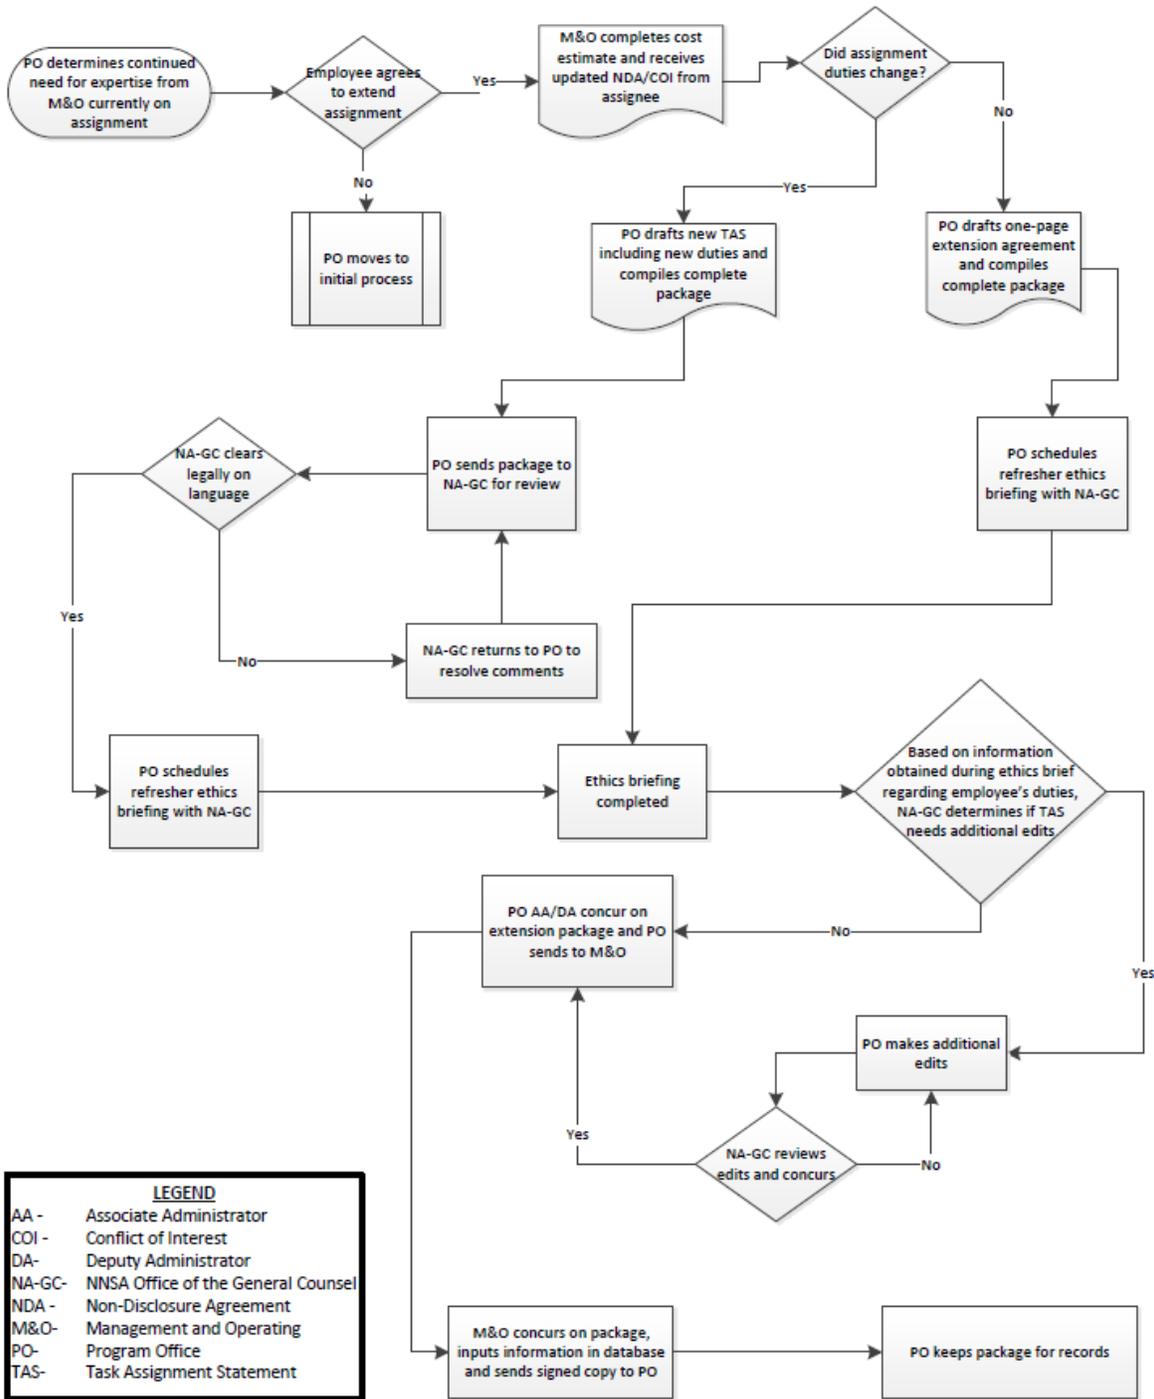

- 1) The PO identifies a need and reaches out to the M&O contractors to find an employee with the necessary expertise to fill the need.
- 2) Once an M&O contractor employee is selected, the HQ Program Office develops a draft Task Assignment Statement (TAS) Agreement using the format in Attachment 4.
- 3) The PO must request the M&O contractor complete a cost estimate for the proposed assignment duration using the format in Attachment 7, and ensure the assignee completes the Non-Disclosure and Conflict of Interest Agreement (NDA/COI) as described in Attachment 6.
- 4) The PO compiles all the necessary documents including, TAS, ETD and TCS Cost Estimates, and NDA/COI to prepare to send to NA-GC for review. If an exception is requested, the exception process as described in Attachment 14 must be followed at this time. If an exception is not requested, the completed assignment package must be routed to NA-GC for review.
- 5) NA-GC reviews the proposed TAS agreement including supporting documentation and will determine whether revisions are necessary or whether the assignee is prepared for an ethics briefing.
- 6) If revisions are necessary, NA-GC will work with the PO to address their comments and/or make revisions. If necessary, the PO and NA-GC will develop a mitigation strategy. Once NA-GC ensures the TAS is complete, the PO may contact the M&O contractor to schedule an ethics interview for the assignee and NA-GC.
- 7) The assignees will complete an ethics briefing with NA-GC.
- 8) NA-GC will inform the PO when the proposed assignee has completed the ethics brief. If required, updates to the TAS will be made based on the information obtained during the ethics briefing; otherwise, the TAS agreement may proceed for signature.
- 9) The PO requesting the assignee will work with the HQ Program Associate Deputy Administrator or designee to concur on the TAS agreement and provide the completed package to the cognizant Program Deputy Administrator for signature.
- 10) The cognizant Program Deputy Administrator or designee will sign the TAS agreement and send the completed package back to the PO requesting the assignee to forward to the M&O contractor for approval.

- 11) The M&O contractor representative who is authorized to approve the TAS will sign and transmit the executed TAS agreement to the PO.
- 12) The PO will keep the official records of the complete task assignment package.

NA-GC -	NNSA Office of the General Counsel
NDA -	Non-Disclosure Agreement
M&O -	Management and Operating
PO -	Program Office
TAS -	Task Assignment Statement

Process for *Extensions* of M&O Assignments to NNSA

The process is as follows:

- 1) Once a PO decides that there is a continued need for the assignee, the PO must discuss a possible extension with the M&O contractor to ensure that continuation of the assignment is possible. In addition, the PO must determine if the assignee will be doing the same work or if the assignee will be performing additional duties.
- 2) The PO must request an updated cost estimate sheet (Attachment 7) for the employee, and a newly signed NDA/COI form (Attachment 6) from the M&O contractor. The cost estimate sheet should reflect the length of time of the requested extension using the method of allowances (ETD/TCS) as decided in the initial assignment agreement.
- 3) If it is determined the assignee will be doing the same duties as previously approved:
 - (a) PO must complete the M&O Assignment to NNSA Assignment Extension request (Attachment 5);
 - (b) PO compiles all the necessary documents, approved TAS agreement from initial assignment, extension request, updated cost estimate, new NDA/COI, and prepares submission to NA-GC for review; and
 - (c) Assignee will complete an ethics briefing with NA-GC.
- 4) If it is determined the assignee will be doing additional/different duties than previously approved:
 - (a) PO must complete a new M&O Assignment to NNSA Task Assignment Statement Agreement (Attachment 4);
 - (b) PO compiles all the necessary documents, revised/new TAS, updated cost estimate, new NDA/COI and prepare to send to NNSA GC for review;
 - (c) NA-GC reviews the assignment package including supporting documentation and will determine whether revisions are necessary or whether the assignee is prepared for an Ethics Briefing;
 - (d) If revisions are necessary, NA-GC will work with the PO to address NA-GC's comments and/or make revisions. Once NA-GC ensures the extension documentation is complete, the PO may contact the M&O contractor to schedule an ethics interview for the assignee and NA-GC; and
 - (e) Assignee completes an ethics briefing with NNSA GC.

- 5) NA-GC informs the PO when the proposed assignee has completed the ethics brief. If required, updates to the TAS will be made based on the information obtained during the ethics briefing; otherwise, the TAS agreement may proceed for signature.
- 6) The PO requesting the assignee will work with the HQ Program Associate Deputy Administrator or designee to concur on the TAS agreement, and will then provide the completed package to the cognizant Program Deputy Administrator for signature.
- 7) The cognizant Program Deputy Administrator or designee signs the TAS agreement and sends the completed package back to the PO requesting the assignee forward it to the M&O contractor representative for approval.
- 8) The M&O contractor representative authorized to approve the TAS signs and transmits the executed TAS agreement to the PO.
- 9) The PO keeps the official records of the complete task assignment package.
